	Viral Whole Genome Sequencing on Nanopore platform (Pilot)

Dear Sir/Madam,

Thank you for your interest and discussion in our Genomics products and services.
Based on the discussion/enquiry please find the price quote as requested.

Service: Viral Whole Genome Sequencing on Nanopore platform (Pilot)

Genotypic is an ISO 9001:2015 certified, SAP enabled 25 years old Genomics R&D Company (Bangalore, India) certified by Agilent and first in the world for all the 3 major microarray applications. Genotypic started providing services on next generation sequencing much before the technology was established in India and has developed its own pipelines for bioinformatics analysis which is the most challenging effort in the NGS era. Genotypic is having its own in-house sequencing and bioinformatics facility which includes technologies such as Illumina, SOLID and Ion torrent. Combining these NGS technologies along with its expertise in microarrays, & qPCR, genotypic provides a wide range of solutions to the genomics user. We have successfully completed more than 1000 NGS and 2000 microarray projects for Indian and Global customers with many publications and acknowledgements.

Please find enclosed special academic pricing, Service details and terms & conditions.

We look forward to work with you for your research needs. Always assure you of the best services at competitive prices.

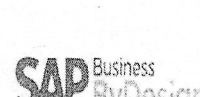

Thanks and Regards,

Mr. Swapnil Kasale

	SALES QUOTE: SQ_21811	QOP/MKT/01/QF-02 Version No: 02 Effective Date: 24.07.2025
---	------------------------------	---

Terms and Conditions:

1. Samples/Data should be collected and shipped as per Genotypic's recommendations (Cells, Tissues, RNA, DNA and data).
2. We DO NOT ACCEPT INFECTIOUS OR HAZARDOUS SAMPLES OF ANY KIND. All samples have to be accompanied by declaration of safety by competent authorities.
3. We accept ONLY RNA/DNA from samples that are infected or suspected to be infected. Such samples should be accompanied by a declaration stating the source of the sample and the infectious agent.
4. Samples will be processed only after receiving the purchase order or 100% payment as an advance.
5. Samples have to be shipped / pre-processed as per recommendation and Genotypic shall not be responsible for loss or damage of samples during shipment.
6. Samples will be processed only after a purchase order has been issued for the above mentioned project.
7. Incomplete and inaccurate documentation in shipments might cause delays in processing of samples/data.
8. Data provided are outcome of recommended / certified protocols, unless otherwise discussed and agreed upon by the client prior to processing of samples.
9. Failure of Sample QC might cause delays and it might involve recommendations to the customer to ensure successful sample QC before next steps are proposed.
10. Microarrays required for processing will be procured after receiving the purchase order. If there is change in the plan of work, the reagent and material cost should be borne by researchers.
11. For custom-designed Microarrays, Microarray probes are designed using clearly described Bioinformatics methods. Support on reagents, protocols and analysis tools will be limited to recommendations without warranties. Genotypic's liability is limited to redesigning the probes and microarrays.
12. **Sample and data storage policy:** Samples and data will be destroyed after a period of 3 months' post completion of project and delivery of data as per the order. Clients are to notify regarding requirement for extended storage at the time of project initiation.
13. **Additional Charges:**
 - a. Any service requests exceeding the deliverables agreed in this quote must be accompanied by a separate Purchase Order or email confirmation which will be subject to extra charges.
 - b. If samples fail in the initial quality control step, additional nucleic acid extraction and QC will be subject to extra charges as applicable.
